Summary

Innovative Software Developer with **2.8 years** of experience in **development**, I have developed features and **UI for both Web and Mobile applications**. Proven ability to design and implement scalable, efficient, and maintainable software Solutions.

Work Experience

CognitiveClouds | Bengaluru, Karnataka Associate Software Engineer | 09/2022 -11/2024

- Develop mobile and web applications using **React Native, React JS javascript** ensuring a **high-quality user experience** and **performance**.
- Maintain and update the codebase to incorporate new features, **fix bugs**, and **improve overall app functionality**.
- Experience with global state management libraries like **Redux** for efficient data flow within applications.
- Took charge of implementing unit testing using Jest-Cucumber, achieving a test coverage exceeding 80.

CognitiveClouds | Bengaluru, Karnataka Software Engineer Trainee | 04/2022 -08/2022

- Building stable and maintainable codebases using **ReactJS and React Native for web and app**.
- Expertise in using TypeScript for static typing and enhanced development in React projects.
- I developed a couple of compact applications using React Native, incorporating features such as map integration and more.

Skills

Technical Skills - HTML, CSS, JavaScript, TypeScript, ReactJs, NextJs, React Router, React Native, Redux toolkit, Firebase, Git, GitHub, GitLab.

Non-Technical Skills - Agile Methodology, Team Collaboration, Problem Solving.

Education

CMR University| Bengaluru, Karnataka
Bachelor of Computer Applications | 06/2022

Certificates

JavaScript Algorithm and Data Structures | Responsive Web Design | Front end Development

Projects

Mahalo

- It was an Internal use website which featured NextJs for the customer-side view and ReactJs for the admin side.
- Employed Sass and Mui to design.
- Improved overall ux by making it responsive and increased the SEO by 14%.

LuxGo

- The application was designed for renting luxury cars and hotels.
- Incorporated functionalities such as maps, camera, photo gallery, push notifications, and more.
- Developed more than 15 screens including landing page, catalog screens etc.,.

Skill Tree

- The application is designed to help users develop and improve new combat skills.
- Different users have different set of screens to show.
- Handled all deep navigation flow by making smooth transitions to all screens.
- Pagination and Infinity scroll added to 3 screens.
