WORK EXPERIENCE

Associate Software Engineer

Cognitive Clouds

📅 September 2022 – November 2024 📍 Bangalore

- Built projects with code that is both clean and maintainable, utilizing TypeScript and engaged with a variety of technologies, including ReactJs, React Native, and NextJs.
- Experienced with global state management libraries such as Redux to optimize data flow in applications, while also utilizing React Hooks to streamline state management within components.
- Designed and optimized reusable components with maximum usage and implementing A/B testing flows.
- Took charge of implementing unit testing using Jest-Cucumber, achieving a test coverage exceeding 90 percent.
- Actively incorporated client feedback, making improvements to meet end-user expectations.

Associate Software Engineer Trainee

Cognitive Clouds

📅 April 2022 – September 2022 📍 Bangalore

- Building stable and maintainable codebases using ReactJs and React Native for web and app including TypeScript for static typing.
- Developed and maintained dynamic applications.
- Revamped whole application to reduce the overall load time.
- Developed cross-browser/platform HTML5, CSS and JavaScript to match design specs for complex page layouts while adhering to code standards.

PROJECTS

Mahalo

- It was an Internal use website which featured NextJs for the customer-side view and ReactJs for the admin side.
- Employed Sass and Mui to design and improved overall ux by making it responsive.

LuxGo

- The application was designed for renting luxury cars and hotels.
- Incorporated functionalities such as maps, camera, photo gallery, push notifications, and more.

Skill Tree

- The application is designed to help users develop and improve new combat skills.
- Handled all deep navigation flow by making smooth transitions to all screens.

PROFESSIONAL SUMMARY

Result-driven professional with an overall experience of 2.8 years. Skilled in designing and developing dynamic, responsive, and scalable applications. Actively involved in requirement gathering, development, testing, and deployment. Skilled in translating UI/UX designs into high-quality code and collaborating with cross-functional teams to deliver high-performance applications. Enthusiastic about staying up-to-date with emerging technologies and I aspire to contribute my software skills professionally by crafting clean and maintainable code.

TECHNICAL SKILLS

- React JS
- React Native
- Next JS
- Type Script
- Java Script
- MUI, SaaS, Tailwind CSS
- Git
- Redux Toolkit
- Firebase

NON TECHNICAL SKILLS

- Agile Methodology
- Team Collaboration
- Problem Solving

EDUCATION

Bachelor of Computer Applications

CMR University

📅 2019-2022

📍 Bangalore

CERTIFICATIONS

- Javascript Algorithm and Data Structures.
- Responsive Web Design.
- Front end Development
